

NEBRASKA ADMINISTRATIVE CODE

TITLE 229 - DEPARTMENT OF LABOR
CHAPTER 10 - QUALITY CONTROL REVIEWS

001. This chapter is adopted pursuant to *Neb. Rev. Stat. §48-727*.
002. At the request of a repair organization of boilers, pressure vessels, or component parts, the Department may conduct an inspection of their quality control program and facilities. This inspection shall be for the purpose of renewal of authorization to use the National Board "R" stamp. Such requests shall be submitted to the Department at least six (6) months prior the expiration date of such stamps. Initial quality control reviews shall be done by the National Board. If the chief boiler inspector is qualified as a National Board Team Leader to conduct "R" stamp renewals, the chief boiler inspector shall conduct all required reviews after the initial review to obtain the National Board "R" stamp.
003. At the request of the National Board, the ASME, or boiler, pressure vessel or component parts manufacturer, the Department may participate in the inspection of their quality control program and facilities. This inspection shall be for the purpose of obtaining or renewing authorization to use the applicable ASME code symbol.
004. Owner-user repair organizations and owner-user inspection organizations shall be subject to an audit by the Chief Inspector, or his or her deputy, every third year after the initial review.
005. Quality control reviews and audits conducted to meet the requirements of 229 NAC 5, §005(F) shall be charged at the pro-rate of \$800.00 per day and/or \$400.00 per one-half day plus all reasonable and necessary expenses attributable to the quality control review.
